

Dooho Lee

Master's Student @ KAIST

I am a first year Master's student conducting research at KAIST Data AI Lab under the supervision of [Prof. Jaemin Yoo](#). My research focuses on Machine Learning on structured data. Outside academia, I've co-founded and worked as a software engineer in three startups, where I honed my problem-solving skills and deepened my expertise in software engineering and product development.

Education

M.S in Electrical Engineering (KAIST Data AI Lab)	2025 – Present
KAIST, Daejeon, Republic of Korea	GPA: 3.8
B.S in Electrical Engineering, Computer Science (Double Major)	2019 – 2024
KAIST, Daejeon, Republic of Korea	Cum Laude (GPA: 3.8)

Publications

Aggregation Buffer: Revisiting DropEdge with a New Parameter Block
[Dooho Lee](#), Myeong Kong, Sagad Hamid, Cheonwoo Lee, and Jaemin Yoo
International Conference on Machine Learning (ICML), 2025

Work Experience

Pensieve Inc. - Berkeley, CA	
Founding Engineer & Designer	Nov 2022 – Aug 2023
- Founded a startup in the US with two UC Berkeley students, built multiple softwares powered by LLMs and made profit through software subscription fees and sales revenue. - Pensieve Extension (#1) supports real-time note taking from users' highlights on Chrome. - Pensieve Notes (#2) supports real-time transcription on Zoom and automatically generates meeting notes. Served to 3 organizations (include Softbank-funded Series D startup Riid).	
US Army - USAG Humpherys, KR	
KATUSA (Korean Augmentation to the US Army)	Nov 2021– May 2023
- Contributed as HR specialist(42a) at the Bravo Company, 602nd ASB, 2nd CAB, 2nd ID. - Addressed US-KR communication; the only KATUSA in the largest company of the US Army.	
LayUs - Seoul, KR	
Software Engineer	Mar 2022– Jul 2022
Built a mobile application where users can upload exhibition tickets to redeem F&B coupons.	
WARD - Daejeon, KR	
Co-founder	Sep 2020 – Oct 2021
- Founded WARD, a machine learning-based stock info service; selected as one of the top 12 teams in 2021 E*5 KAIST under mentorship from Blue Point Partners' Deputy CEO. - Launched private beta with 200+ users; gathered feedback through 4 fund manager sessions, 20 user interviews, and 100+ survey responses.	

Industrial Project

Graph-Based Tracking of News Propagation on Social Media Using LLMs	
National Cyber Security Research Institute, KR	Jan 2025 – Present

Location

Daejeon, KR

Research Experience

Data AI Lab - KAIST

Undergraduate Intern Jan 2024 - Feb 2025

- Conducted in-depth studies of traditional to recent advances in graph machine learning; researched generative self-supervised methods for GNNs, focusing on cold-start problems.

Multi Modal AI Lab - KAIST

Undergraduate Intern Aug 2023 - Dec 2023

- Studied foundational deep learning papers focus on computer vision and multi-modality.

Teaching Experience

Programming Structures for Electrical Engineering (EE209, KAIST)

Teaching Assistant (Instructor: Jaemin Yoo) Spring 2025

- Independently developed a new programming assignment on Data Structures with auto-grading; replaced a decade-old project for a core course for 200+ EE majors each semester.

Selected Awards & Honors

Startup		
2nd place, 2023 Korea SW Startup Ideathon (Team Fall-Asleep)		Oct 2023
1st place, Pre-Startup Package (Dajeon center of CCEI)		Aug 2021
Design		
1st place, 8th Army ROKA Support group Insignia Competition		Apr 2023
2nd place, Art Service Follow-up Growth Project (Team LayUs)		Nov 2022
Others		
2024 team KAIST Global Challenge Program (\$15,000 funding)		Apr 2023
Bronze Medal, NH Investment Big Data Competition (Team Ward)		Aug 2021
1st place, 7th Creative Space G A.I & IoT Hackathon		Jul 2021
